**STATEMENT REGARDING OPERATING PROCEDURES  
IMPLEMENTING 47 C.F.R. SUBPART U  
GOVERNING USE OF  
CUSTOMER PROPRIETARY NETWORK INFORMATION (CPNI)**

The following statement explains the internal procedures of IDT Corporation ("IDT") to ensure that it is in compliance with the Commission's CPNI rules.

IDT uses CPNI internally for the purpose of providing a customer with the requested service and marketing service offerings among the categories of service to which the customer already subscribes from IDT.

IDT may also use CPNI internally for the following actions:

- (1) to bill and collect for services rendered;
- (2) to provision inside wiring installation, maintenance, and repair services;
- (3) to market services formerly known as adjunct-to-basic services, such as, but not limited to, speed dialing, computer-provided directory assistance, call monitoring, call tracing, call blocking, call return, repeat dialing, call tracking, call waiting, caller I.D., call forwarding, and certain Centrex features; and
- (4) to protect the rights or property of IDT, or to protect its users and other carriers from fraudulent, abusive, or unlawful use of, or subscription to, IDT's services.

IDT procedures require that CPNI be used only for the purposes identified above. Customer approval is not required for these uses of CPNI as they are specifically permitted under the statute or by Commission rule.

IDT does not use, disclose, or permit access to CPNI to market service offerings that are within a category of service to which the subscriber does not already subscribe from IDT.

IDT employees are trained to secure CPNI and related confidential information. All marketing campaigns are reviewed and approved to ensure appropriate treatment of CPNI and related confidential information. IDT does not sell, disclose or otherwise distribute CPNI to third parties outside of its own marketing activities.
